## Itinerary

### Day 1

#### Moshi - Lake Chala

Your friendly guide will arrive at your accommodation armed with your tasty packed lunch. Then he or she will bustle you into the transport and drive you to Lake Chala Safari Camp. On the way, you'll journey through the everyday life of Moshi and onto the freeway, and you can spend a relaxing, comfortable hour and a bit taking in the sights.

Lake Chala Safari Camp is a beautiful private game reserve overlooking Lake Chala. You'll arrive there and our guide will take you down to the lakeside, through vividly green flora, with the blue, blue lake ahead of you. It gets quite rocky near the lake so wear sturdy footwear. It's a stunning area perfect for hikers and birdwatchers, and in the season you might be lucky enough to spot elephants gathering at a distant waterhole. Spend the day wandering the paths around the lake or across the nearby savannah, where you're likely to see baboons, vervet monkeys and blue monkeys as well as (perhaps) the shy dik-dik and graceful kudu, too.

After your hike, spend some time sitting by the lakeside enjoying the stillness, only disturbed by birdsong and the gently lapping waters. If you're feeling a little more active, you can jump into a kayak and explore the lake further. You'll be serenaded by the ever-present birdsong and gentle splashing of the water as you row.

After your adventures, stop at the bar for a drink (alcoholic or otherwise) and if

you'll be a little peckish, an afternoon snack. If you haven't opted to camp at the Lake (think campfire under the star-filled heavens), you'll be driven back to Moshi in the late afternoon. The pleasant drive will give you some time to reflect on your day and wonder if it would be rude to go straight to bed when you get back. You won't believe how tired you'll feel after a day of restorative, stress-relieving peace.
